Tell us about yourself!

Welcome to the English Salon!

Some of us may know each other already but I'm sure we'll be meeting some new members in our first class, so please introduce yourself!

Tell us where you were born, introduce your parents to us and tell us about your brothers and sisters, what they were like? If you worked, tell us about your job. What are your hobbies and interests? Why did you decide to become an English Salon member?

By the way, I'm very interested in knowing about your childhood life in Japan. I wonder what your favorite food was, did you eat dinner at a kotatsu, did you sleep on a futon, did you have a bath in your home or did you go to a local public bath (sentou)? What household chores did your parents make you do? Did you go on family trips together?

Nowadays we live very modern lives, but I think it will be interesting for us all to hear about such things from your past.

Technology

These days our homes have video door phones, and with a touch of a button we can heat up our baths to exactly 40 degrees.

Now family restaurants have robots that deliver food to tables! In some restaurants we must order our food with a tablet. What do you think about these things? Are you comfortable with such technology?

Do you use a smartphone? Do you regularly send messages to your family members and friends using LINE? Do you think LINE is a good way to communicate?

Technology has both good points and bad points. What do you like and dislike? What technology do you find useful, do you dislike or find hard to use?

City or country life?

There are many advantages to living in cities, but there are disadvantages too. Cities are noisy, the air is not so clean, people are not so friendly, and so on.

I think Sakura is a great place to live but if you could choose to live anywhere in Japan, where would you like to live and why?
